> **On colour value.** ASTA is the parameter that decides the purchase for a paprika buyer, and it degrades with light and heat in storage. It is measured per lot and declared at shipment, not at packing.

DOCUMENTATION SUPPLIED

- Certificate of analysis, per lot
- Organic transaction certificate, per lot — when the lot is certified
- Phytosanitary certificate
- Certificate of origin
- Commercial invoice and packing list
- Bill of lading

> Values in brackets are pending confirmation by ADT Origen S.A.S. before this sheet is sent to a buyer. Ranges are typical for the origin and are confirmed per lot by the certificate of analysis.
